- **Softball turf fields:**
  - Bob Brobson of Lane Tech Girls Softball Booster Club Rep presented their proposal to transform softball fields 7 and 8 into turf fields.
  - Challenged to find places to practice due to weather and competition from boys' baseball. Current fields in poor condition, benches buried.
  - Used Hale Park field renovation as an example. That cost \$750K and was covered by Cubs Care and the Cal Ripken Foundation.
    - The group recognizes that two fields would likely cost over \$1.5 million and feel confident about fundraising capabilities. Felt timeline could be

“accelerated.” HPAC reminded the group that the Chicago Park District does not allow advertising and naming rights must be approved by CPD.

- Deb mentioned and group familiar with a softball family who wants to make a large donation to honor the memory of their daughter that may be able to fold into funding for this project.
- Project would involve demolishing current fields, grading, and 18 inches of soil removal -- which HPAC explained is probably contaminated, making disposal more costly. Plan shows turf infield to grass outfield, chain link fencing for perimeter protection, concrete curb for bleachers, players, spectators. The project would not include lights at this time.
- HPAC advised that it would like to see public meetings held to gather community feedback and offered to help coordinate/host.
- A question was raised regarding the need for concrete; crushed limestone was discussed as a potential alternative.
- A question was raised regarding who would maintain the fields. Needs to be further researched and coordinated.
- It was noted that the current mode of scheduling fields would still be in effect.
- Recognition of the limited lifespan of turf fields and need for future replacement.
- HPAC members present were generally supportive of developing the idea further.
- **Ecuadorian Festival (August 13-14):**
  - Status is uncertain. Permit application has not been submitted to or approved by the Chicago Park District.

## **Old Business:**

Funds received through PayPal, Venmo and Square; admission contributions through Brown Paper Tickets (BPT) and Eventbrite; as well as by direct deposits to the bank.
- The HPAC checking account was defrauded by an unknown person charging personal household expenses. Fifth Third Bank will credit HPAC us for those expenses, as well as for the reimbursement check that was fraudulently deposited.
- Diane opened a new checking account and swept almost all the funds to the safety of the new account. Once the final outstanding checks clear the bank, she will close that old account. Since banking information cannot be changed on the current PayPal account, it will soon be closed.
- Kevin is updating the HPAC donation webpage to accept funds in other ways
- Reports to be distributed under separate cover to HPAC members.

- P&L was revised to show shifting of BPT from BrewFest to RiverRun; however, this does not change the Treasurer's Report for DFA and Concerts.

### **Concerts Committee:**

- At the July 8 Waco Brothers show at Horner Park, HPAC revealed the new name for the concert series: The John O'Connell Concert Series, presented by the Horner Park Advisory Council. There was a terrific crowd at Horner Park, about 500-600 people, and Horner Park was a great backdrop for the show.
  - John O. read a statement thanking HPAC for the Concert Series naming honor. His statement [is available here](#).
- There are three more shows in this year's series:
  - **August 5 at Manor Park:** The Mary Jane Breakdown (Tom Petty music)
  - **August 19 at Manor Park:** Le Ballet Petit's recital
  - **September 9 at Jacob Playlot Park:** Jess McIntosh & Aaron Smith (the Old Town School of Folk Music show)
- The Committee still needs assistance at shows, mainly in the form of setting up/taking down lights when needed, but also with announcements and more. ### **Dog Friendly Area (DFA) Committee:**

- Ongoing maintenance continues.

- A build meeting was held August 3 to discuss the remaining work.
  - The Chicago Park District feels it has gone as far as it can to make the current solar/battery operated water feature system work and cannot solve the outstanding issues. It will explore what is required to get electricity there and circle back with us. The current plumbing and water features are all useable; there just needs to be a reliable power source. Unfortunately, there is not a close source to tap, so it would have to do some trenching. It would take out the current bollard activator and controller and replace it with a foot pedal activator and timer system that they have used in other park spray areas.
  - Timing and cost to complete the work are to be determined.
- The July 23 Farmer's Market table went well; there will be another on October 15.
- The DFA Committee will host a fundraising event on Thursday August 4<sup>th</sup> from 6-9pm at Burning Bush Brewery; online ticket sales were capped at 100 and are now closed; limited tickets (about 25) will be available the day of the event.

- Kudos to Gretchen and the Farmer's Market Committee members for making the 2022 season awesome. This market could not happen without their time and energy, and we are grateful for them.

#### **Concerts Committee:**
